

2014 Hood Canal Coordinating Council Required Implementation Metrics

Metric Name	Unit of Measure
FISH PASSAGE	
Total number of Fish Passage Barriers Removed (Number of blockages / impediments / barriers impeding passage)*	Number
Miles of stream made accessible *	Miles
Fishway chutes or pools Installed	Number
Fish ladder Installed / improved	Number
Culverts installed	Number
Bridge installed	Number
Road - crossing removal	Number
INSTREAM HABITAT	
Total length of instream habitat treated *	Miles
Channel structure placement: number of structures placed in channel*	
Channel reconfiguration and connectivity: stream miles treated	Miles
Channel structure placement: miles of stream treated	Miles
Streambank stabilization	Miles
RIPARIAN HABITAT	
Total acres of riparian area treated *	Acres
Acres planted *	Acres
Total riparian miles streambank treated *	Miles
Forestry Practices/stand mgmt.	Acres
Miles of streambank planted	Miles
Miles of streambank treated for plant removal (knotweed/invasive)	Miles
Fencing	Miles
Watergap development (Livestock Bridges Installed)	Number
UPLAND HABITAT	
Miles of total road treated	Miles
Road drainage system improvements and reconstruction	Miles
Road abandonment and obliteration	Miles
Erosion control structures	Number
Number of livestock water installations/developments	Number
WETLANDS	
Total amount of wetland area treated	Acres

2014 Hood Canal Coordinating Council Required Implementation Metrics

ESTUARINE & NEARSHORE	
Total acres of estuarine/nearshore area treated	Acres
Berm or dike removal modification	Miles
Acres open to Tidal Processes	Acres
Berm or dike removal or modification (acres available)	Acres
Tidegate alteration / removal (acres)	Acres
Culvert alteration/removal (acres)	Acres
Removal of existing fill material	Acres
Acres of Estuary Treat for plant removal/control	Acres
Acres of shoreline treated for armor modification/removal	Acres
Contaminant removal / remediation	Acres
Debris removal	Acres
Overwater structure removal / modification	Acres
Estuarine acres planted	Acres
Channel Modification/creation	Yards
Shoreline armor removal modification	Miles
Miles of soft-shore techniques	Miles
Miles of Shoreline treated for beach nourishment	Miles
Tidegate alteration/removal	Each
Estuarine culvert modification/removal	Each
Number of Bridges	Each
Groin Removal/modification	Each
Cubic Yards of existing fill removal	CuYds
Beach Nourishment material placed	CuYds
CONSERVATION & ACQUISITIONS	
Land, wetland or estuarine area protected from further degradation or development through purchase, lease, negotiated agreement, or other mechanism	Acres
Miles of Shoreline protected	Miles
Miles Of Streambank Protected By Land or Easement Acquisition	Miles
Estuarine/nearshore acres protected (PSP Metric)	Acres
SITE MAINTENANCE	
Restored stream or streambank/riparian area maintained.	Acres
Restored land maintained	Acres
